

## **WATER OPERATOR NEEDED**

East Columbia Water District is taking applications for full time Water Operator. The position is responsible for monitoring and maintaining the public water system in accordance with Louisiana Department of Health's requirements.

Responsibilities include but are not limited to:

- (1) Production – Service & maintain all components involved in the production and source of water including but not limited to pump maintenance & daily production.
- (2) Treatment – Operate & maintain plant and all of its components including but not limited to chemical feed, filters, testing/sampling and reporting.
- (3) Distribution – Maintain all phases of distribution including but not limited to pumps & pump controls, service connections, meter reading & meter maintenance and record keeping.

Applicant should be capable of confidently handling all equipment relevant to water analysis and identifying, troubleshooting, diagnosing, and correcting or replacing any issues that may occur in the field.

Qualifications:

Minimum requirements: High School Diploma or GED equivalency diploma, and a valid Driver's License.

Preferred requirements: The ability to operate an excavator or trencher and/or a Class 2 Operator Certification from Louisiana Department of Health in water distribution, water production and water treatment.

If applicant does not have Class 2 Operator Certification upon being hired it will be required to maintain the position.
